Live better. Longer.

From all of us at Thrive Alliance

Dear Friend,

It can be difficult if services or schedules change, when life is in flux, and when we like to know what is going to happen when. ❤️ But we imagine you have been through challenging times before and have learned some skills that you can draw upon now. You have resilience.

We would like to encourage you to reach out to your family, friends, neighbors, acquaintances, and church family. Let them know you care, and if they are interested, share some of your tips for patience and resilience with them. You are valued and needed.

If you have an interest or a hobby that could make someone's day a bit brighter (for example, send a card, make a gift, draw a picture, or simply wave to a neighbor) every little bit helps. You can make a difference.

You are remembered.

You have resilience.

You are valued and needed.

You are loved.

You can make a difference.
